# Spa 85 Salon

---

With over 20 year's experience, Master Stylist/Colorist Glory has been making her mark on Long Island. Long sought after for her color expertise, Glory developed a loyal following by providing clients with long lasting color and the ability to formulate almost any requested color. After many years of working in different salons Glory decided to open Spa85 in 2004. It was time to provide clients a refuge from the traditional Salon Experience.

Using education as her foundation, Glory has assembled a team of stylists that share her passion for advancing their skills. Not satisfied with the status quo, Glory and her Spa85 team invest in themselves by attending as many advanced cutting and coloring classes they can. The results are a client base that enjoys healthier shiny hair and longer lasting color in between touch-ups. Since opening Spa85, Glory has developed a reputation for rescuing hair from the brink of destruction and restoring it back to health.

Come to Spa85 and experience your hair like never before. Let Glory and her team of stylists provide you with a completely new level of hair care and find out what over 10,000 clients already know. Put your hair in our hands and let's make some magic.
